Walgreens
AT THE CORNER OF **HAPPY** & **HEALTHY**

Healthcare Landscape

- Both patients and payors are failed by uncoordinated care efforts
- Chronic diseases account for up to 75% of U.S. health spending
- 30 day readmissions cost the US Healthcare System 16 Billion annually
- A third of new prescriptions never get filled
- Health Care Reform is driving change

Most intriguing medical facts of 2012, American Medical News

Healthcare Reform - Transformation

Hospitals penalized if patients are re-admitted to the hospital within one month of a visit for a condition that may have been preventable.

- The independent Medicare Payment Advisory Commission estimates that 15.3 percent of hospital admissions result in a re-admission
- In 2010 alone, this happened 1.9 million times at an estimated cost of \$17.5 billion

Trend forward:

- Hospitals becoming more concerned with delivering higher quality health care
- Value versus volume

Investments in Education Not Translating to Patient Knowledge

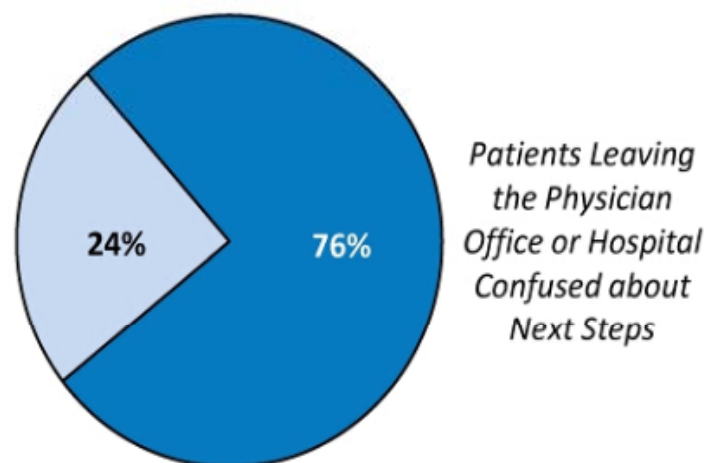

Dedicating Time to Patient Education...

Time Spent on Discharge Education¹

...But Failing to Drive Comprehension

Patients Leaving Providers Without Clear Guidance

Pharmacy Intervention and Proven Outcomes

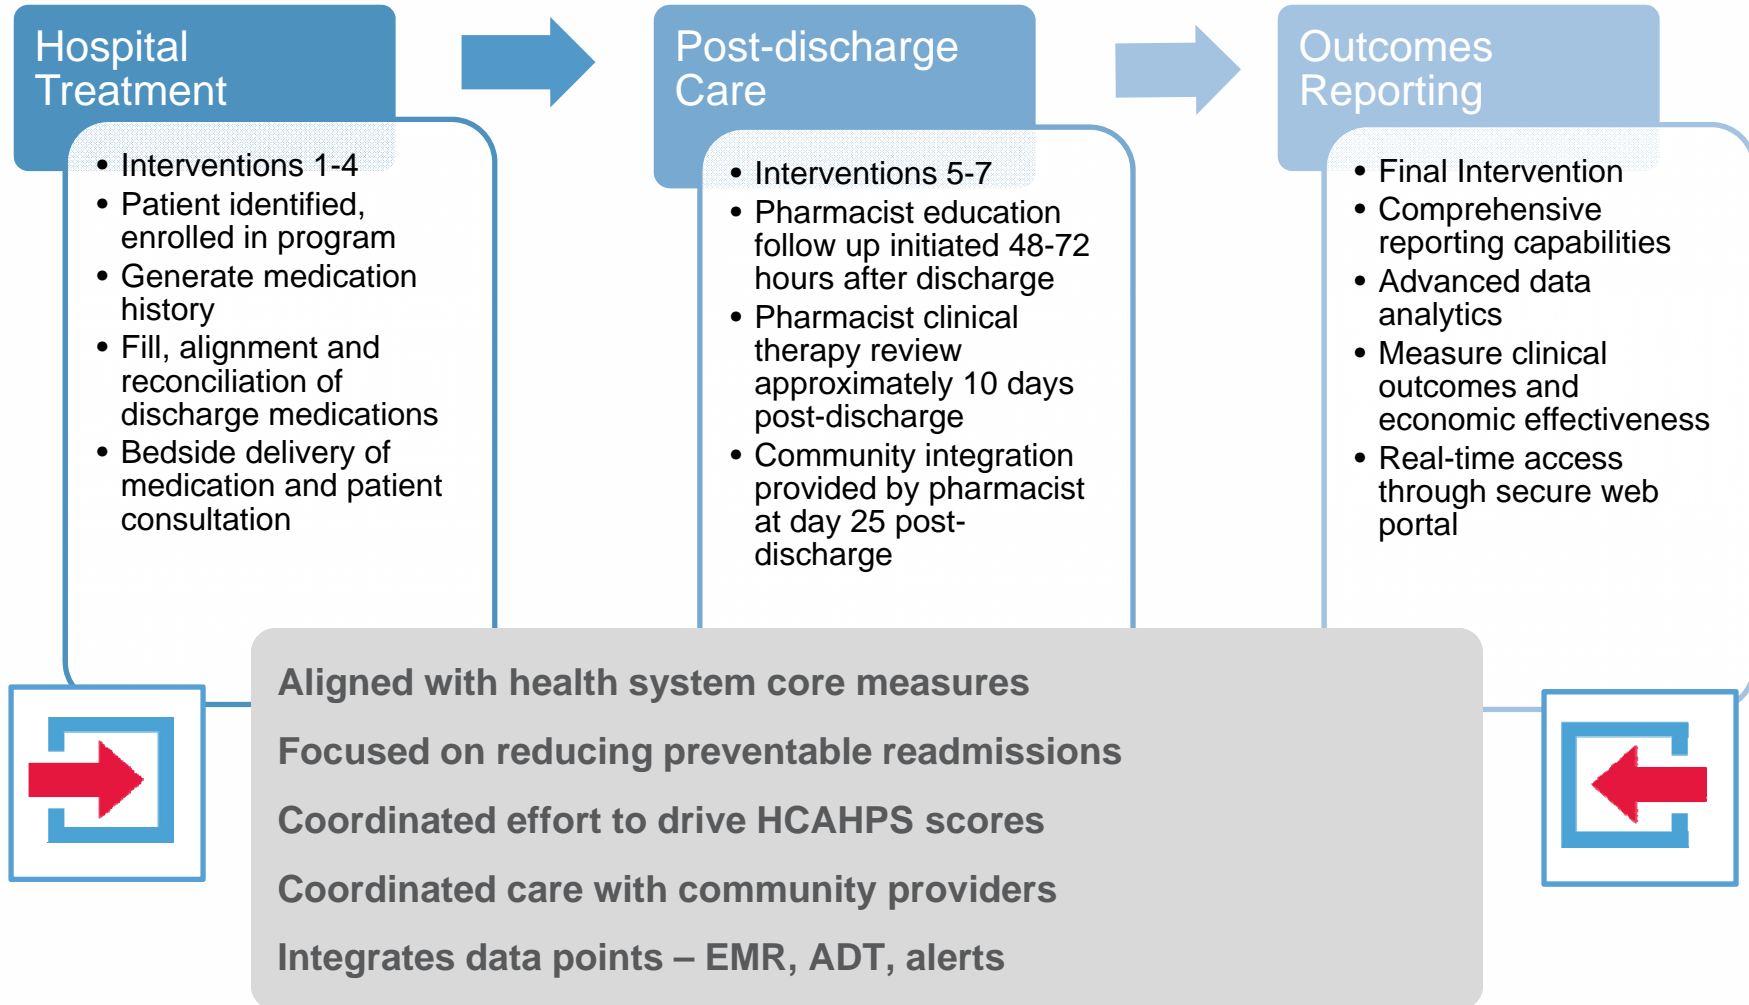

Critical role of pharmacists in reducing unplanned readmissions

- ***Reduction of 30-day post discharge hospital readmission or emergency department (ED) visit rates in high-risk elderly medical patients through delivery of a targeted care bundle.*** Journal of Hospital Medicine. 2009;4(4):211-218
- ***Implementation of an electronic system for medication reconciliation. American journal of health-system pharmacy*** AJHP : official journal of the American Society of Health-System Pharmacists. Feb 15 2007;64(4):404-422.
- ***Inpatient medication reconciliation at admission and discharge: A retrospective cohort study of age and other risk factors for medication discrepancies.*** The American Journal of Geriatric Pharmacotherapy. 2010;8(2):115-126.

WellTransitions- Three Phased Approach

WellTransitions - Extended Scale and Reach

Increasing access

- National footprint
- Within 5 miles of 70% of the U.S. population
- Extending care through our 8,000 locations
- Product is hosted on web-based platform allowing for virtual patient management
- Scalability to health systems pharmacies, allows for support by retail and call center services

Thank You
