300 Concentra Centers
(38 States)

As of 6/30/15

H OUR HOSPITALS ARE PART OF SELECT MEDICAL'S NETWORK OF MORE THAN 100 LONG-TERM ACUTE CARE HOSPITALS

Let hope thrive™

Our Mission Select Medical will provide an exceptional patient care experience that promotes healing and recovery in a compassionate environment.

Our Values

We deliver superior quality in all that we do.

We treat others as they would like to be treated.

We are results oriented and achieve our objectives.

We are team players.

We are resourceful in overcoming obstacles.

Our Commitment

We believe that to accomplish our mission we must be true to our values. To be true to our values, we must see the world through the eyes of patients and their families, fellow employees, physicians, referral sources and job candidates.

We believe that taken together these experiences will form an enduring impression and legacy for Select Medical.

Our Vision

The Select Medical Way is to put the customer first.

The Select Medical Way is to help improve quality of life for the community in which we live and work.

The Select Medical Way is to be open to, transparent about, and welcoming of new ideas from all levels of the organization to continually improve.

The Select Medical Way is to attract, train, and retain the best possible staff.

The Select Medical Way is to stand out from others by fully embracing high-quality clinical care and sharing a commitment to doing well by doing right.

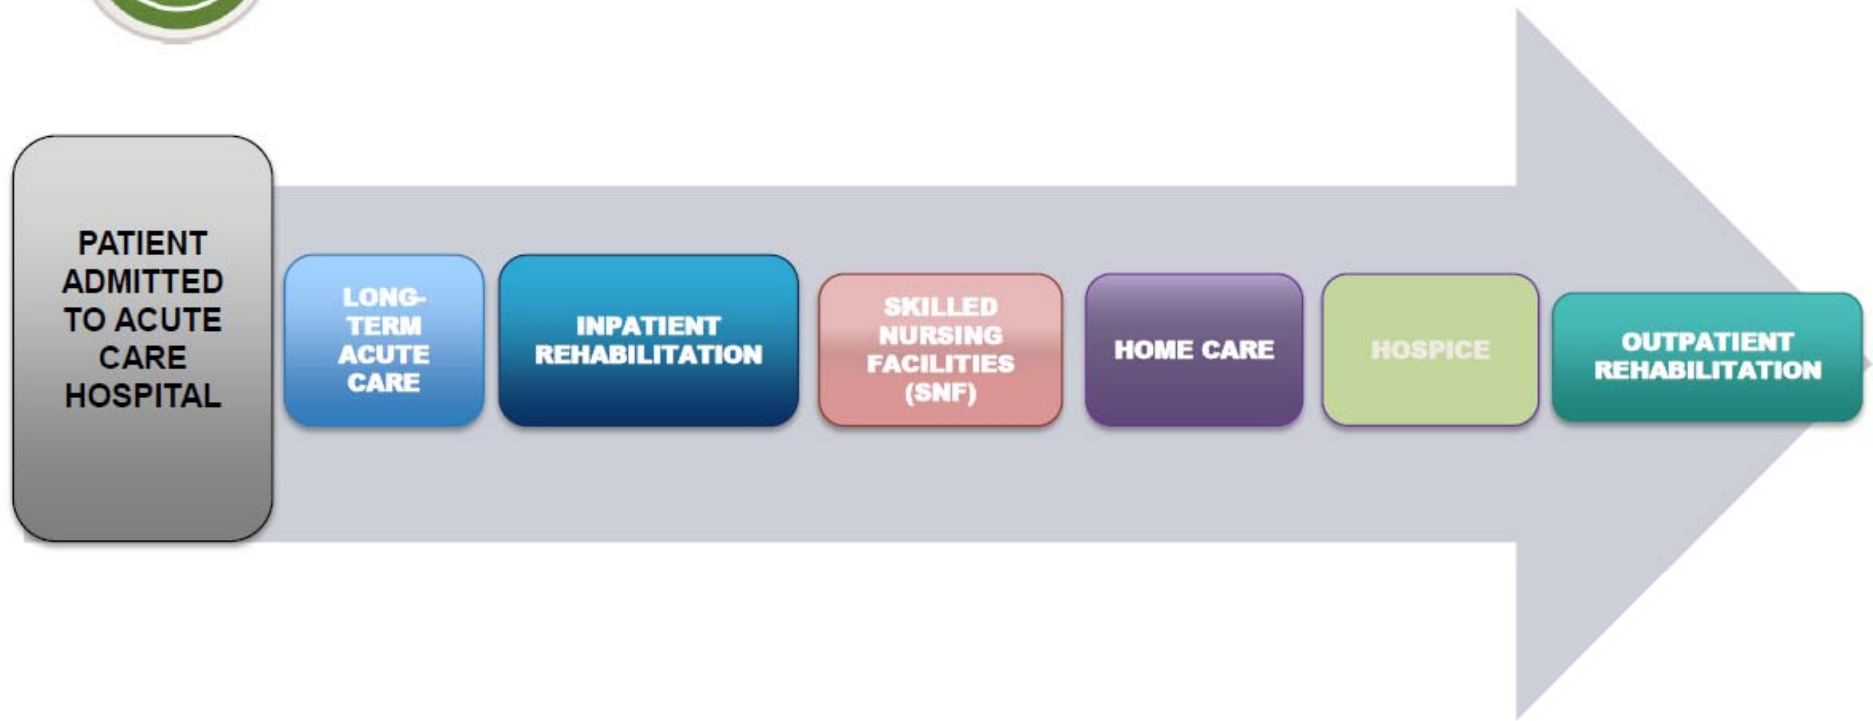

Transitions of Care

Let hope thrive™

Continuum of Care

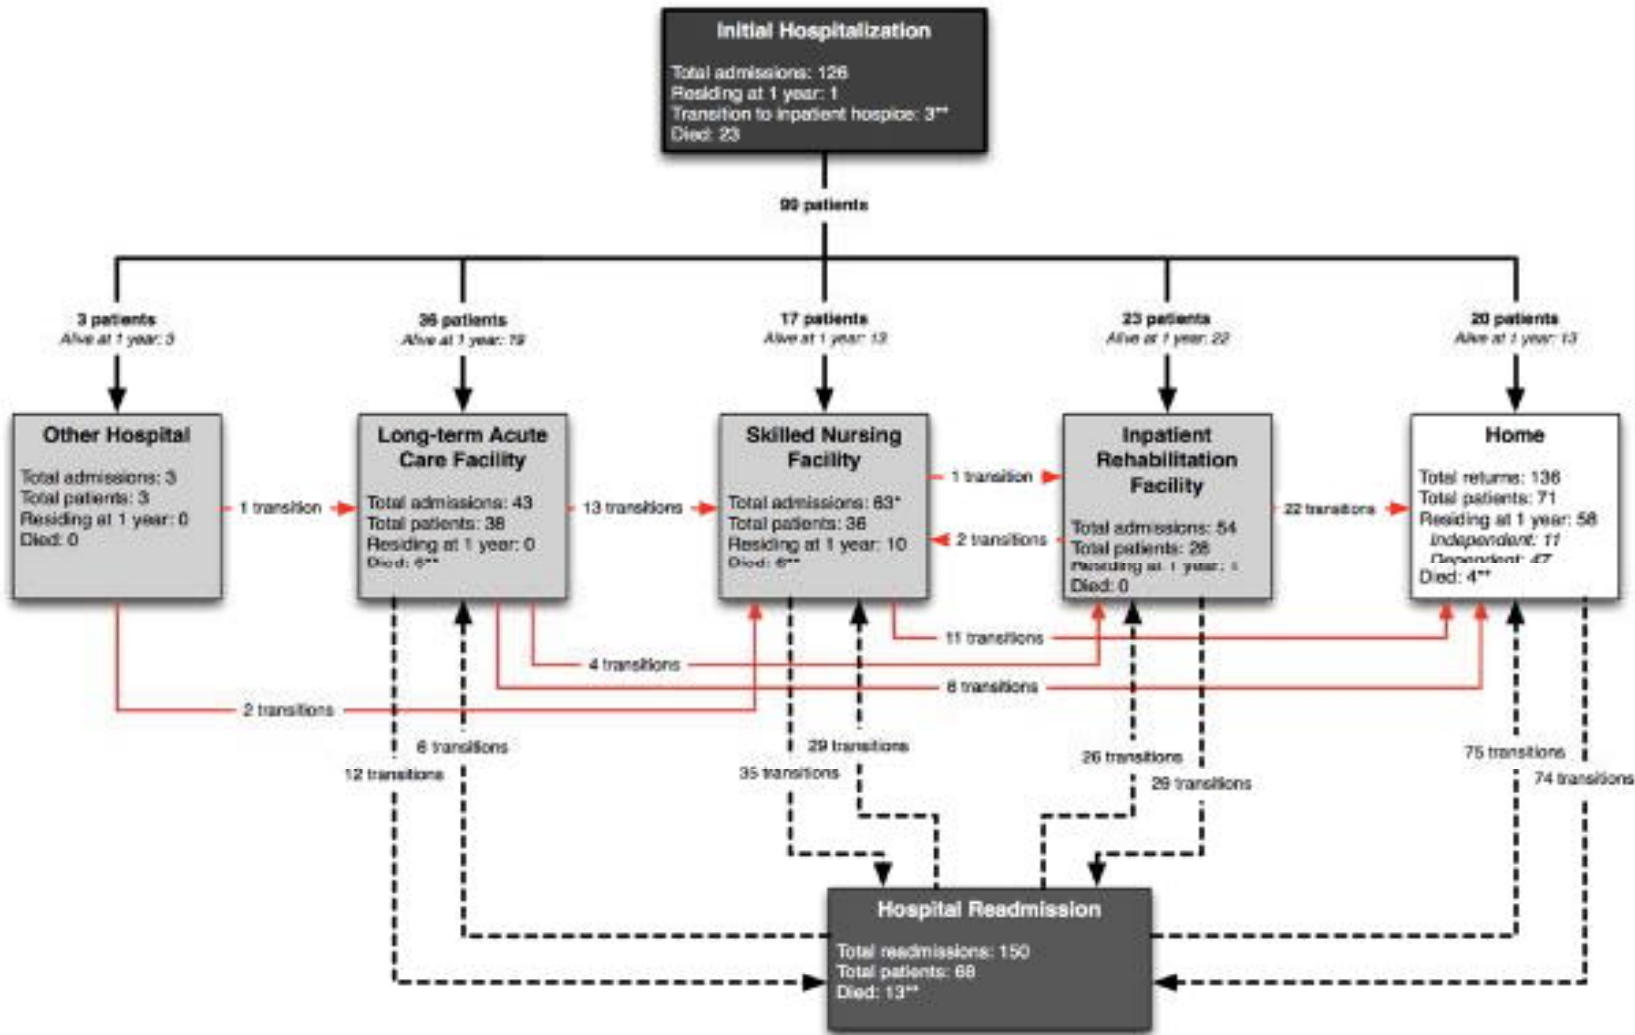

Right Patient, Right Level of Care, Right Time

OUR HOSPITALS ARE PART OF SELECT MEDICAL'S NETWORK OF MORE THAN 100 LONG-TERM ACUTE CARE HOSPITALS

Let hope thrive™

Admission Scenarios – Study Example

OUR HOSPITALS ARE PART OF SELECT MEDICAL'S NETWORK OF MORE THAN 100 LONG-TERM ACUTE CARE HOSPITALS

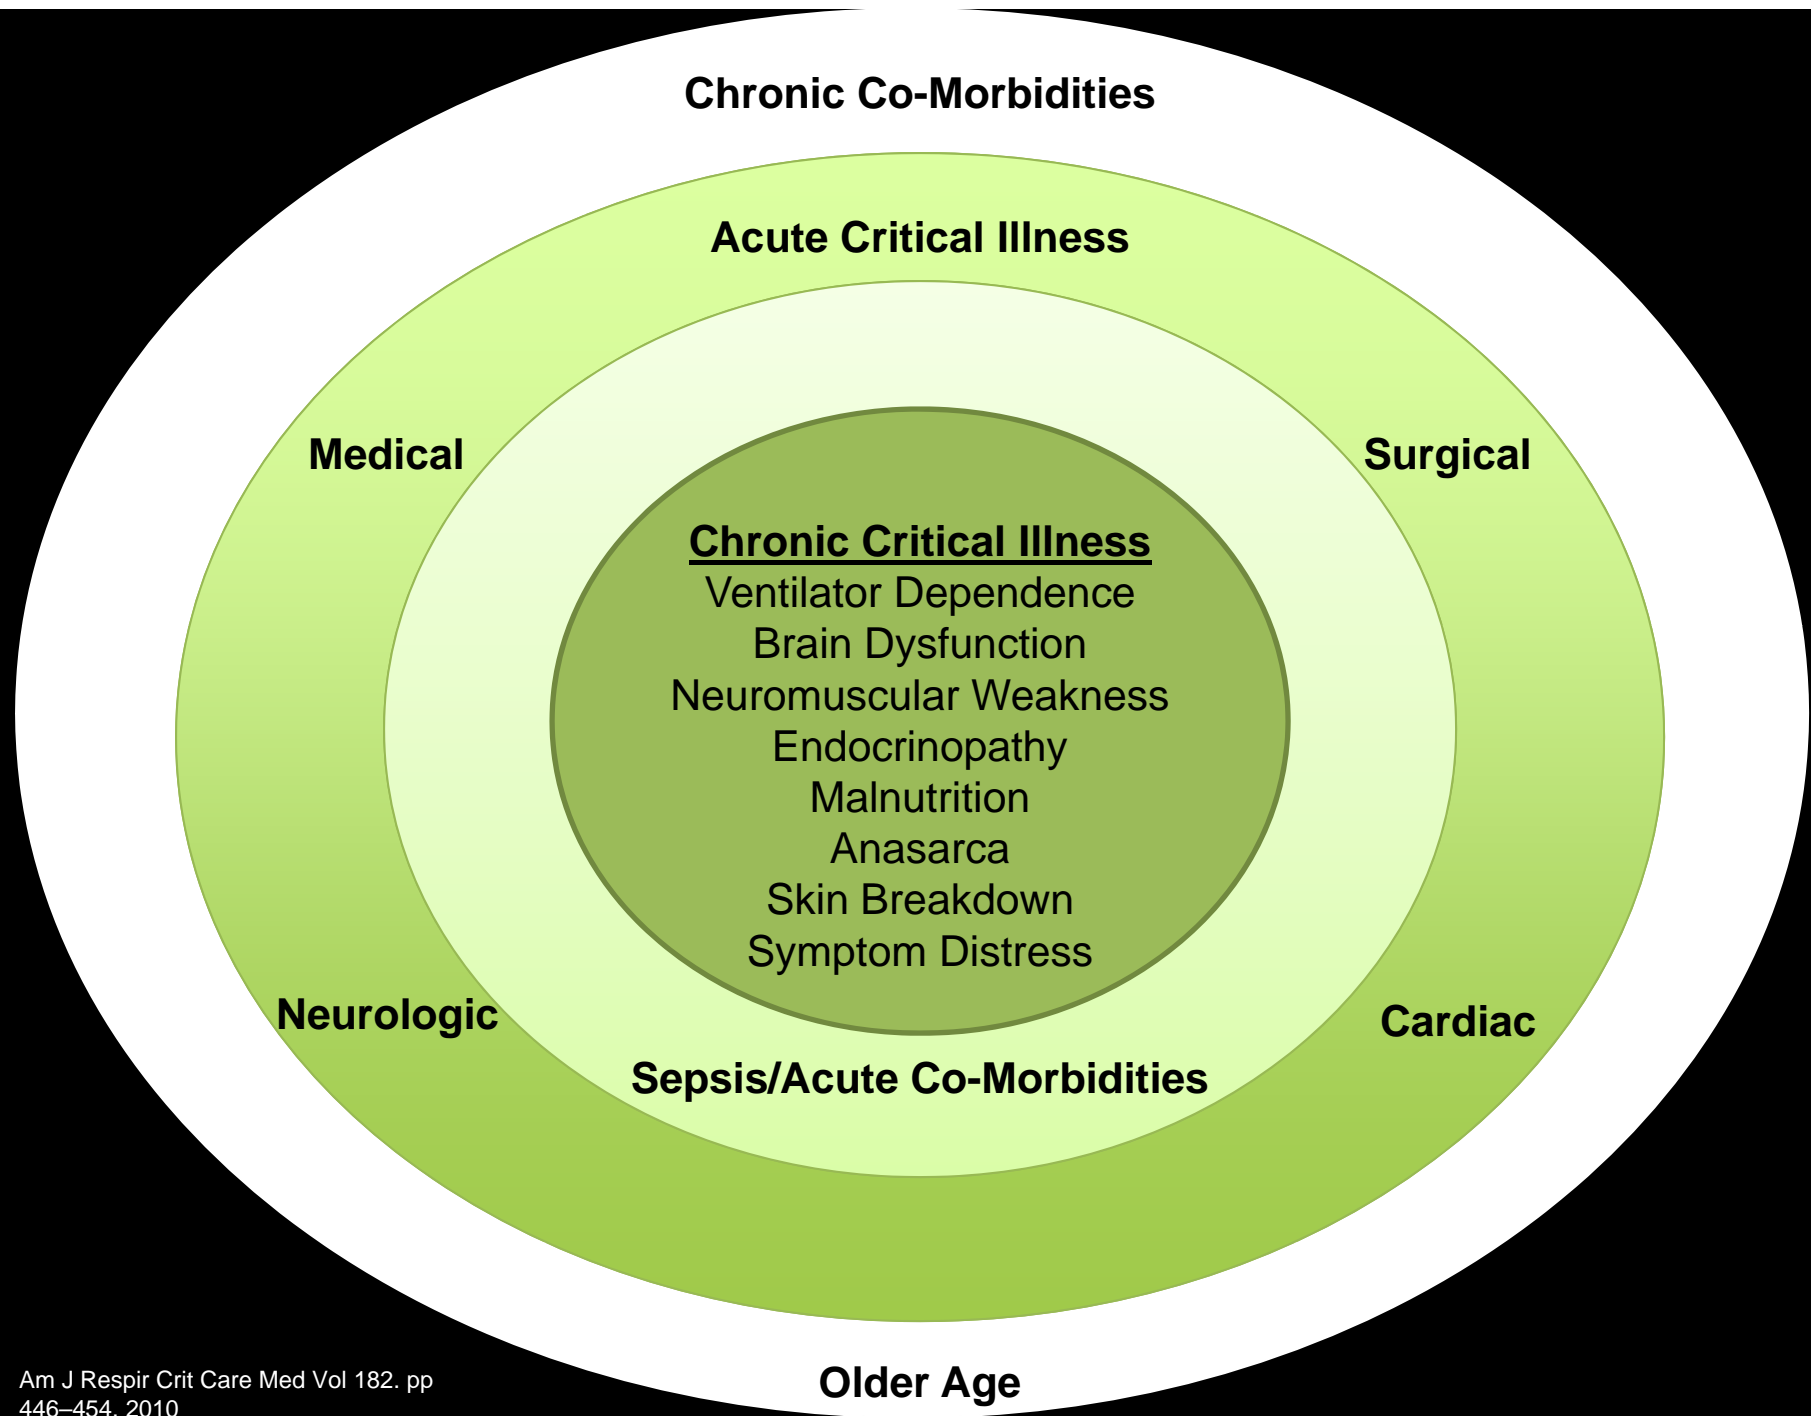

Let hope thrive™

Chronic Critical Illness (CCI)

- High acuity, medically complex with multi organ system failure
- Frequently requires prolonged mechanical ventilation
- Distinct clinical group of patients with distinct pathophysiology and care needs when compared to acutely critically ill patients
- Post Intensive Care Syndrome (PICS)

CCI Discharge Options: CHEST, 2005

Level of Care	Acuity Level	Advantage	Disadvantage
Acute ICU	Patient may be unstable	Hi Tech interventions as well as full ICU care (cardiac cath, Pulmonary Artery Cath, Full OR)	Cost Focused on acute needs Not skilled in CCIS
Acute Step-down	Lower cost Patients usually stable	Hi tech interventions with transfer back to ICU	Focused on short stays Not Skilled in CCIS
LTACH	Patients may be unstable as long as acute care interventions not needed	Specialize in CCIS Clinical Team and Patient Focused Lower cost Physician Coverage Patient focused	Some focused interventions available (GI procedures, debridements, Respiratory procedures, basic diagnostics)
Sub-acute SNF	Patients must be stable	Cost Family access Patient focused	No on-site interventions, clinical team not skilled in CCIS and ratios much lower No daily physician coverage
SNF	Patients must be stable and recovering	Cost Appropriate clinical services	Staffing ratios No on-site interventions No daily physician coverage
Acute Rehabilitation	Must be stable and able to meet rehab criteria	Rehab and mobility focused	CCIS pt often not ready for this level

Role of LTACH

- Specialized ACUTE Care Environment
 - Evidence Based Treatments and Protocols
- Interdisciplinary Team Focus and Intensity of Service
 - Patient Centered
- Serves a Critical Role in Facilitating Functional Outcomes
 - Environment and Skillset for Early Mobilization of CCI Patients

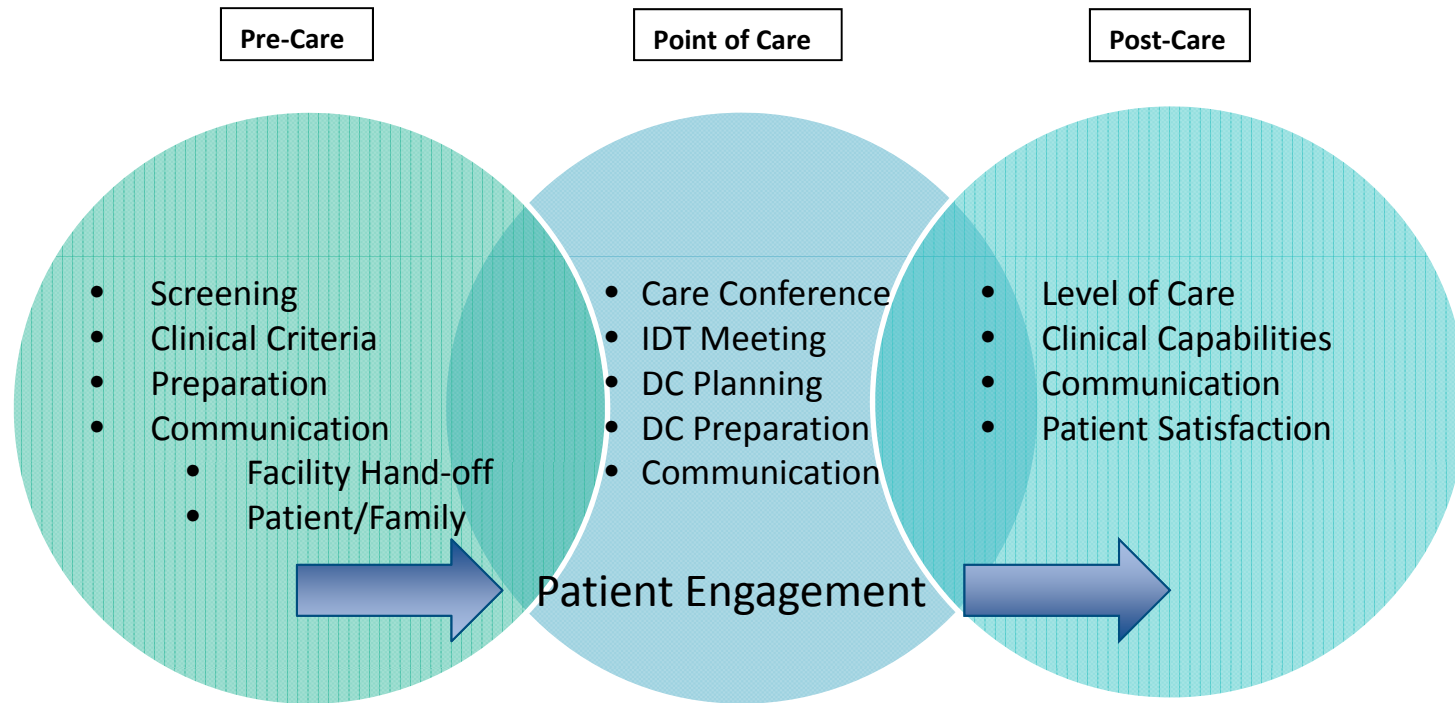

Care Coordination

Let hope thrive™

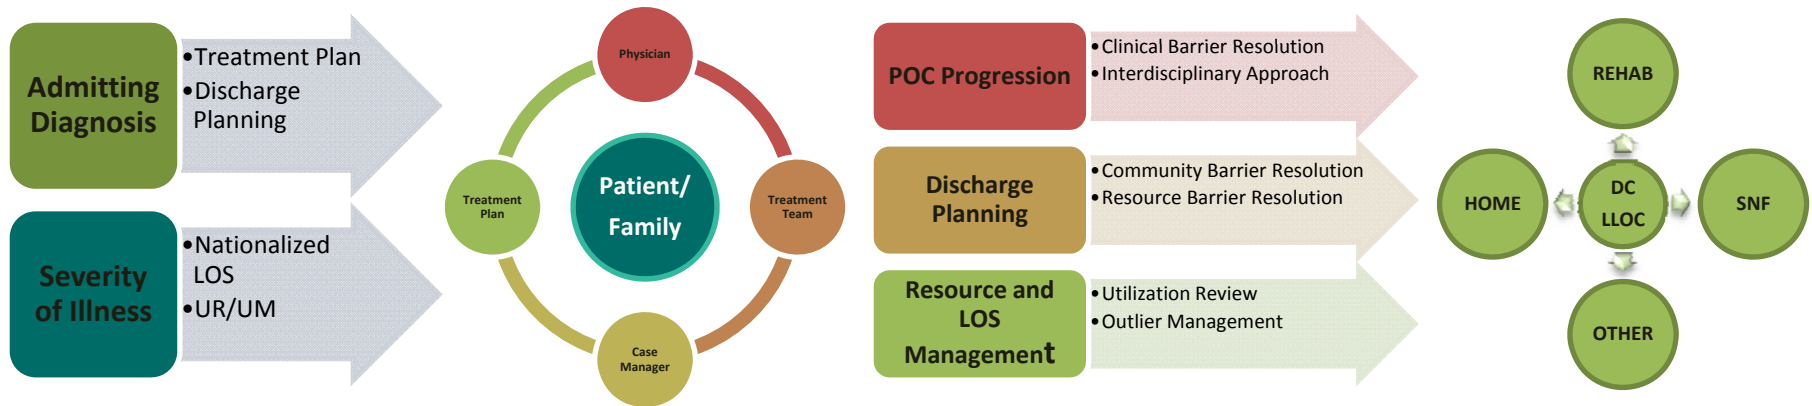

Care Coordination

Focus and Innovation

Point of Care - Case Management/UR

Organized Interdisciplinary Workflow

OUR HOSPITALS ARE PART OF SELECT MEDICAL'S NETWORK OF MORE THAN 100 LONG-TERM ACUTE CARE HOSPITALS

Let hope thrive™

Key Points – Care Coordination

- Appropriate Transitions of Care
- Patient Centered Care Planning
- Multi-Discipline Team Focused Treatment Plans
- Flow of Information and Education for Patients and Providers
- Innovations in Care Delivery and Coordination of Care

Thank you
