The Honorable Eddie Bernice Johnson
Chairwoman
Committee on Science, Space, & Technology
U.S. House of Representatives
Washington, D.C. 20510

The Honorable Frank Lucas
Chairman
Committee on Science, Space, & Technology
U.S. House of Representatives
Washington, D.C. 20510

Dear Chairwoman Johnson and Ranking Member Lucas:

The Healthcare Leadership Council (HLC) appreciates the opportunity to submit this letter regarding the U.S. House of Representatives Committee on Science, Space, & Technology hearing on “Coronaviruses: Understanding the Spread of Infectious Diseases and Mobilizing Innovative Solutions.”

HLC is a coalition of chief executives from all disciplines within American healthcare. It is the exclusive forum for the nation’s healthcare leaders to jointly develop policies, plans, and programs to achieve their vision of a 21st century healthcare system that makes affordable high-quality care accessible to all Americans. Members of HLC – hospitals, academic health centers, health plans, pharmaceutical companies, medical device manufacturers, laboratories, biotech firms, health product distributors, post-acute care providers, home care providers, and information technology companies – advocate for measures to increase the quality and efficiency of healthcare through a patient-centered approach.

As the 2019 Novel Coronavirus (COVID-19) outbreak continues to spread rapidly across the globe, HLC members share your concerns over this significant threat to public health and remain vigilant during this public health emergency. Our members recognize the importance of public-private partnerships, especially during emergency preparedness and response, and have been engaged on all fronts to contain and to prevent further spread of COVID-19.

To date, HLC members have contributed their scientific expertise to research and development efforts and have partnered with agencies within the U.S. Department of

Health and Human Services, such as the Biomedical Advanced Research and Development Authority, to accelerate the development of a COVID-19 vaccine and treatments for the infection. Additionally, our members have provided monetary and in-kind contributions (surgical masks, ventilators, disinfectants, etc.) for COVID-19 relief, taken steps to protect the healthcare supply chain, and have screened and treated patients that have recently traveled to China for COVID-19. HLC recognizes the importance of disaster preparedness and response and is holding ongoing discussions with agencies within the federal government including the Office of the Assistant Secretary for Preparedness and Response, the Centers for Disease Control and Prevention, and the Department of Homeland Security to discuss collaboration on improving the nation's readiness to respond to disasters and catastrophic events.

As a diverse, multisector organization with representation from all disciplines within American healthcare, we stand ready to be a resource for you as this public health emergency continues to evolve. Thank you for examining this important issue and please feel free to contact Tina Grande, at (202) 449-3433 or tgrande@hlc.org with any questions.

Sincerely,

A handwritten signature in cursive script, reading "Mary R. Grealy". The signature is written in black ink and is positioned above the typed name and title.
